

# Clean hands save lives!

The CC12/24

# Compact Classic

The TEAL Compact Classic hot water hand wash unit (provided in 12 and 24 volt versions) is designed to be fitted to motor vehicles.

Provides a  
hot water hand  
wash wherever it's  
needed!

Combining the advantages and durability of brushed stainless steel finish with the latest TEAL electronic control, makes the Compact Classic an ideal unit for motor vehicles.

# For hot water hand washing in commercial vehicles

## The hardwearing and robust Compact Classic

The TEAL Compact Classic for motor vehicles allows washing under hot running water that is tightly temperature controlled to give a most hygienic and comfortable wash: it folds shut when not in use.

The multi jet spray tap head with finger tip control, ensures an even spread of water and an excellent wash can be achieved in ten seconds using very little water.

There's no need to mix hot and cold water and no need to fill the bowl.

**The Compact Classic is provided in 12 and 24 volt versions.**

Conforms to ECE Regulation 10 and EC Directive 72/245.

E11 approval no.10R-055528.

Euro 6 compliant wiring and control.
