IMPACT POWER TOOL BITS

- Impact grade power tool bits for the professional user.
- Forged from high quality S2 steel.
- Specially heat treated CNC precision machined tips reduce stress and prevent cam-out under load.
- Torsion bits absorb impact and transfer maximum torque to the fixing.

2 TONNE LOW PROFILE SHORT CHASSIS TROLLEY JACK WITH 180° HANDLE

180° turning handle allows use even in tight spaces.

- Min./Max. Saddle Height: 100/350mm.
- Chassis Length: 490mm.
- Heavy-duty chassis with strengthening flanges along the top edge for extra torsional rigidity under load.
- Profiled lifting arm allows low clearance height of just 100mm making this unit suitable for sports and custom cars.
- Fitted with heavy-duty one-piece hydraulic unit with pump-through action preventing handle locking at maximum ram extension.
- White saddle aids positioning under vehicle and safety valve prevents overloading.
- **Model No. 2180LE**
- List Price £83.95

SAFETY GUARDS FOR VIKING HYDRAULIC PRESSES

- Lightweight steel frames with Polycarbonate screens.
- Adjustable guard protects the user and/or passer-by from being injured if workpiece is accidentally dislodged under load.
- Bolts onto either side of the table and features varying height increments, allowing the workpiece to be placed onto table with no obstruction.
- One-way spring loaded locking clips then allow the guard to be pulled up quickly and snap straight into position for full protection.

Air Supply Ring Main System

Install your own workshop compressed air ring main quickly, easily and competitively with these compressed air systems. A complete professional compressed air system can be installed quickly and easily, considerably reducing the need for specialist staff. Avoids extensive disruption and downtime. Simple push-action pipe fittings do away with preparing threaded tubes or applying solvents. Complex pipe and fitting configurations are also assembled more rapidly since the fittings can be disassembled and reconfigured quickly. Both our Speedfit® and Sharkbite® ranges of compressed air systems are fully compatible with each other and can be connected to existing ring main even if made of galvanized steel.

For illustration purposes only.

Lightweight yet strong acetel copolymer fittings and nylon pipe runs.

For illustration purposes only.

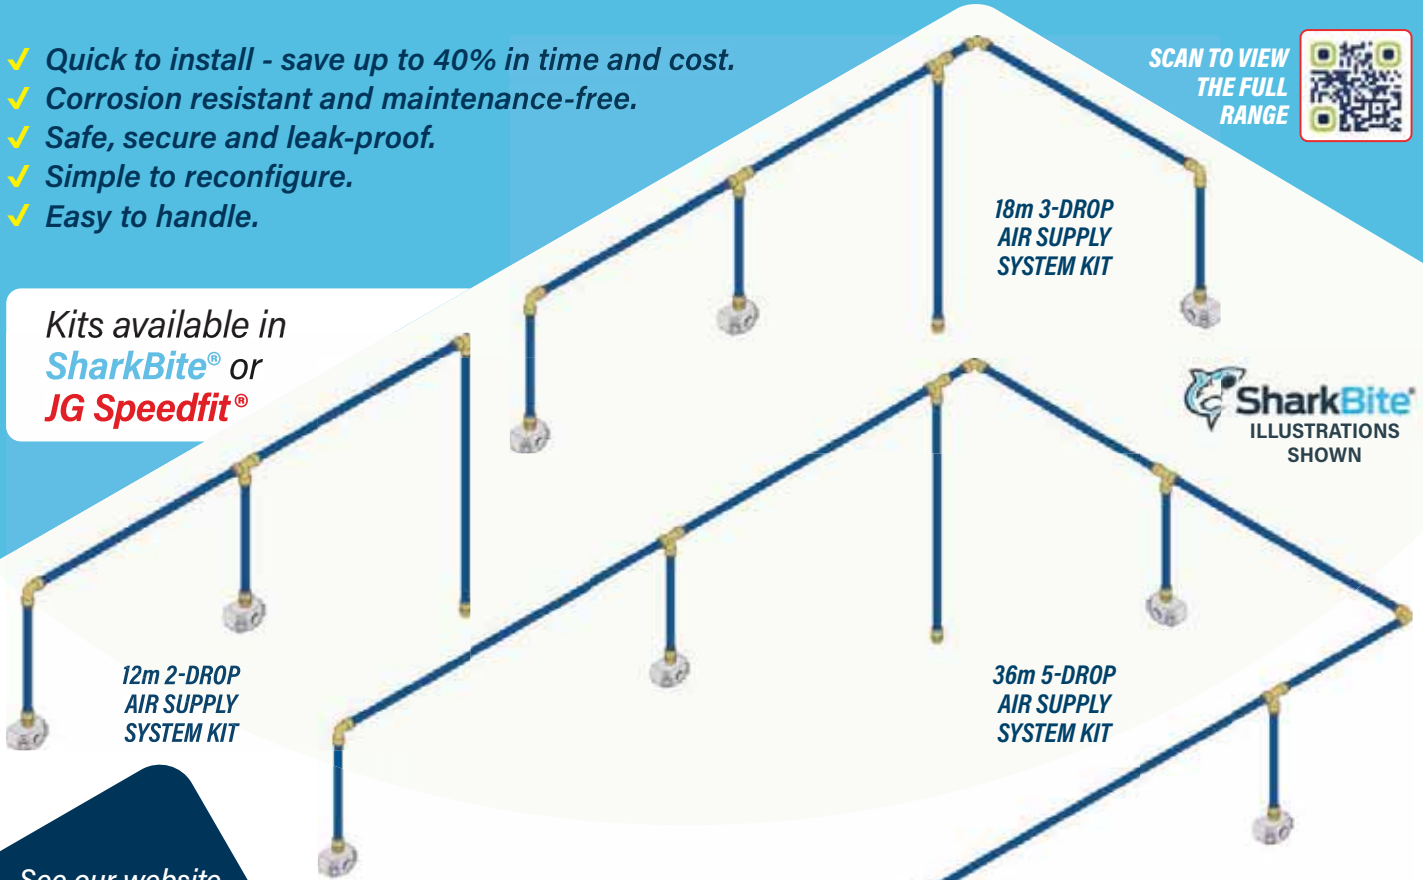

Brass fittings and aluminium pipe.

- ✓ Quick to install - save up to 40% in time and cost.
- ✓ Corrosion resistant and maintenance-free.
- ✓ Safe, secure and leak-proof.
- ✓ Simple to reconfigure.
- ✓ Easy to handle.

MMA INVERTER WELDERS

140A 160A 180A OR 200A

- Lightweight, powerful and incredibly versatile, inverters offer many advantages over traditional transformer type welders.
- Inverters use state-of-the-art electronic components to produce fully portable power sources for arc welding.
- For example, Model No. MW160i will produce up to 160A at 20% duty cycle; a conventional 160A welder would have a duty cycle of around 10%.
- Manufactured from pressed steel with a powder coated finish for extra corrosion resistance, with ergonomically designed composite end for a stylish design and keeping weight below 7kg.
- Features a carry handle, ideal for mobile technicians.

Model No. MINIMW120i

Model No. MINIMW140i

- Ultra compact and lightweight range of MMA inverter welders, weighing approximately 4kg.
- Portability allows the welder to be taken to the job at hand, ideal for the mobile technicians and enthusiasts.
- These units can ARC/MMA weld a variety of rods including rutile, basic and stainless from Ø1.6mm up to Ø4mm*.
- Features LED display, with thermal cut-out protection, anti-stick, arc force & hot start functions.
- Supplied with 1.6m 12 or 16mm² cable* with electrode holder and a 1.4m 12 or 16mm² earth clamp and cable*, both with 10-25 dinse connectors.
- Forced air cooling system.

SV10.8
SERIES

The SV10.8 Series, powered by fast charging 2Ah or 4Ah Lithium-ion batteries, has been designed to make everyday tasks quick and easy. These quality, stylish tools, ideal for light-duty tasks, feature ergonomic housings with soft grip, making them comfortable and easy-to-use.

10.8V 2AH SV10.8 SERIES Ø85mm CORDLESS CIRCULAR SAW KIT

Ø85mm

Model No. CP108VCS

- Supplied with 1 x wrench for removing and replacing blades.
- No-Load Speed: 0-1450rpm.

Model No. CP108VCS kit includes:

- CP108VCSBO - 10.8V SV10.8 Series Ø85mm Cordless Circular Saw - Body Only
- CP108VBP - 10.8V 2Ah SV10.8 Series Lithium-ion Battery Pack

SV12
SERIES

The SV12 Series offers a range of compact and lightweight tools, ideal for use in tight spaces. Ergonomic composite housings reduce vibration, providing operator comfort.

SV20 SERIES

The SV20 Series offers quality, stylish, lightweight tools designed with composite housing and a soft grip, making them comfortable and easy-to-use. Highly suited to heavy-duty tasks, these tools deliver powerful outputs without compromising on operating time. The series provides a choice of three Lithium-ion batteries ranging from 2Ah, for a faster charge, up to 6Ah for a longer lasting runtime. Available as body only or kits containing Batteries, Charger and Storage Bag.

20V SV20 SERIES TELESCOPIC CORDLESS HEDGE TRIMMER & CHAINSAW KITS

- 1 CP20VTP - 20V SV20 Series Cordless Telescopic Pole for CP20VPSH/CP20VPHT
- 2 CP20VPHT - 20V SV20 Series Cordless Pole Hedge Trimmer - Body Only
- 3 CP20VPSH - 20V SV20 Series 20cm Cordless Chainsaw Head - Body Only
- 4 CP20VBP2 - 20V 2Ah SV20 Series Lithium-ion Power Tool Battery

DELUXE FACE SHIELD WITH POWERED AIR PURIFYING RESPIRATOR (PAPR)

EN 12941 is the European standard for a complete powered air filtering device incorporating a face helmet or visor.

This standard outlines three classes of performance, which define the following maximum levels of inward leakage*: 10% for TH1, 2% for TH2 and 0.2% for TH3 (see individual Model No's for TH classification).

*Inward Leakage estimates the performance of a respiratory device by measuring contaminants that leak through a respirator from various sources, including filter penetration, face seals, valves & gaskets.

- Lithium battery powered respirator unit provides the user a constant filtered stream of air to their head and face for up to approximately 8 hours.
- The filter assembly, consisting of a foam pre-filter and HEPA filter, is designed to reduce or remove dust and particles but not vapours and gases.
- The kit meets performance class TH2 according to EN 12941:1998/A2:2008.
- Adjustable airflow settings of 150-180L/min.
- Features an audible alarm to alert user of low battery/low airflow.
- Polycarbonate visor for increased protection, stability, and durability.
- Ratchet adjustable headband with front and back padding for extra comfort.
- Suitable for use with standard glasses.
- Face shield conforms to BS EN 166, Optical Class 1, Impact Grade F.
- **Model No. SSP80PAPR**
- List Price £379.95
